A TWO-DAY OFFLINE CONFERENCE

EMPOWERING HUMANITIES AND SOCIAL SCIENCES

A DISCOURSE ON NATION BUILDING AND SUSTAINABILITY

Empowering Humanities and Social Sciences refers to the initiative to more fully incorporate human-centered disciplines—such as sociology, history, and education—into nation-building and sustainability processes. Researchers employ discourse analysis to examine how language and narratives influence national identities, power structures, and environmental policies, thereby contributing to the development of more inclusive and resilient societies.

Objectives:

- Health Humanities
- Digitalization of Humanities
- Enhancing Social Transformation
- Strengthening Policy and Governance
- Racism and its impact on the world
- Driving Behavioral and Cultural Change
- Fostering Critical Thinking and Reflexivity
- Fostering Interdisciplinary Collaboration
- Promoting Social Equity and Environmental Justice
- Other Related topics

9TH & 10TH OCT, 2026

Nation-building refers to the process of constructing a national identity through state power to achieve political stability and social cohesion.

- **Constructing Identity:** State elites may utilize policies such as accommodation or assimilation to create "majorities" and establish a unified national brand.
- **Role of Social Sciences:** These disciplines offer the cultural and historical context necessary for understanding how governmental policies, such as mass schooling and national content, facilitate nation-building.
- **Empowerment:** In this context, empowerment encompasses the use of language and communication to foster self-confidence, promote inclusive discourse, and provide a platform for diverse viewpoints, which are essential for both personal and political authority.

Discourse analysis is a qualitative method that investigates language within its social and cultural contexts to reveal how meaning is generated.

- **Revealing Power Dynamics:** This method is utilized in the humanities and social sciences to uncover underlying motivations, power/knowledge relations, and systems of oppression.
- **Deconstructing Problems:** By making the assumptions underlying a project or research method explicit, discourse analysis allows researchers to view "problems" from a broader perspective and understand their ontological foundations.
-**Promoting Change**: It serves as a tool for social justice by challenging dominant narratives and amplifying marginalized voices.

Experts argue that a "sustainable future" necessitates collaboration among academics from the humanities, social sciences, and planning. Such collaboration addresses issues like environmental degradation and poverty, often considered failures of human behavior and management. By integrating these fields into the science-policy interface, it becomes possible to highlight the social and economic opportunities or constraints associated with various sustainable policy options.

Publishing opportunity: We are currently in talks with several publishing houses and academic journals to publish the best papers of the conference in an anthology or a special issue.

Last date for submission of abstract: 10th September 2026

Conference Dates: 9th and 10th of October 2026

Submission Link: https://forms.gle/K3grUgUmLuErZf4Q6

Registration Fee: Rs. 3000

CONVENER

PROF. SMITA JHA

Head, Department

Humanities & Social Sciences

Indian Institute of Technology, Roorkee

ORGANISING COMMITTEE

Prof Binod Mishra
Professor, Humanities and Social Sciences, IIT Roorkee

Prof Sanjit Mishra
Professor, Humanities and Social Sciences, IIT Roorkee

Prof Nagendra Kumar
Professor, Humanities and Social Sciences, IIT Roorkee

Prof Rashmi Gaur
Professor, Humanities and Social Sciences, IIT Roorkee

Dr Sarbani Banerjee
Assistant Professor, Humanities and Social Sciences, IIT Roorkee

Dr Aruni Mahapatra
Assistant Professor, Humanities and Social Sciences, IIT Roorkee

Dr Sonal Jha
Assistant Professor, Humanities and Social Sciences, IIT Roorkee

HOSPITALITY COMMITTEE

Prof Pratap Chandra Mohanty
Professor, Humanities and Social Sciences, IIT Roorkee

Prof Manish Kumar Asthana
Associate Professor, Humanities and Social Sciences, IIT Roorkee

Prof Roluahpuia
Associate Professor, Humanities and Social Sciences, IIT Roorkee

Dr Lalatendu Keshari Das
Assistant Professor, Humanities and Social Sciences, IIT Roorkee

Dr Tony Thomas
Assistant Professor, Humanities and Social Sciences, IIT Roorkee

Dr Rishman Jot Kaur Chahal
Assistant Professor, Humanities and Social Sciences, IIT Roorkee

Dr Shruti Sengupta
Assistant Professor, Humanities and Social Sciences, IIT Roorkee
